Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2161

This is in response to Applicant's amendment filed on May 05, 2006 in which claims 1-19 are presented for examination.

Status of Claims

Claims 1-19 are pending; of which claim 1 is the sole independent claim.

Response to Arguments

Applicant's arguments with respect to claims 1-19 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Dettinger U.S. Patent no. 6,938,036.

As per claim 1, Dettinger et al. discloses "a computer-implemented method of searching for particular online data content, the method comprising: receiving a query from a user requesting particular online data content" Col. 2, lines 14-22); identifying a universe of data content against which to apply the received query the universe of data content being defined by prior browsing activities of the user and including a limited subset of data content that is defined by data content previously accessed by the user: and searching the identified universe of data content for the particular online data content (see Dettinger Col. 2, line 10-Col. 3, line 28).

As per claim 2, Dettinger et al. discloses "determining search results for the received query based on searching the identified universe of data content and presenting to the user the determined search results" (Col. 7, line 58-Col. 8, line 25).

As per claims 3-4, search results are distinguished from universe of data content and outside of universe of data since Dettinger distinguished between search result returned based on the primary data source and the secondary data source wherein the second data source is a subset of the primary data source (see Dettinger Abstract).

As per claims 5-15, Dettinger provides mechanism such as HTML application to provide font, prior browsing activities are defined as previously executed query and previously returned search result (Col. 7, lines 58-Col. 8, line 9) and it is apparent that the previously executed queries were executed during a certain time having a beginning time and an ending time where the may determine when to execute the query.

Dettinger provides Direct access storage for storing identities associated with the data content (Col. 5, lines 32-39); Dettinger provides a host computer as a server computer that communicates with a client computer (Col. 5, lines 1-10).

As per claims 16-19, all the limitations of these claims have been noted in the rejection of claims 1-15. They are therefore rejected as set forth above.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2161

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
